COMMISSIONER ASKS

CERTIORARI IN CASE

fore Tribunal for Review. Text of Documents

Attorney for William J. Frizzell in Supreme Court a motion to dismiss the writ of error which was granted

In the brief accompanying the mo-tion, which was filed by former Sen-ator Joseph W. Bailey, A. A. Birney and W. J. Neale, it is stated that the Chief Justice granted the writ of error "upon the ground that there was a doubt in his mind."

Mr. Newman, on the other hand, through his atterneys has filed with

doubt in his mind."

Mr. Newman, on the other hand, through his attorneys, has filed with the Supreme Court a petition for the issuance of a writ of certiforari to bring the case up to the highest tribunal.

This step was taken in case the motion to dismiss the writ of error already granted should prevail. It is expected that the motion to dismiss and the petition of Mr. Newman for a writ of certiforari will be taken up for consideration, by the court when it meets Tuesday.

Effect of Court Action.

Should the court dismiss the writ of error the effect would be to affirm the ecision of the lower court, the District Court of Appeals, which sustained verdict against Newman obtained in the District Supreme Court.

If it grants the writ of certiorari it will permit the case to be taken before the Supreme Court for review. No Conflict With U. S. Policy.

But should the court refuse the writ of certiorari, as well as dismiss the writ of error, the effect would be finally to decide the case against Mr. Newman In brief, seeking to dismiss the writ of error, it is contended that the jurisdiction of the trial court was not at issue; that the validity of any authority exercised under the United States, or the existence or scope of any power or duty of the President and the Senate was not drawn in question, but even it were true that the power of the President to appoint an ineligible person to the office of District Commission to the office of District With the two policies to which the United States has been committed.

Argument

which the eligibility of men who have been chosen by a direct vote of the people to fill important offices has been challenged, and that challenge has been sustained, sometimes on the question of age, sometimes on the question of residence and sometimes on the question of citizenship.

"Indeed, so far as our information extands, this is the first time that anybedy had ever ventured to say that after the lawmaking power had fixed the qualifications, whether appointive or elective, the statutory requirements can be disregarded and the courts are powerless to enforce them. Such a contention is so utterly unfounded that it does not present a substantial controversy and cannot therefore serve as a basis for a writ of error to the Supreme Court."

In the Japanese version as given in Japan's memorandum to the powers, her demands are restricted to the powers, her de

preme Court."

In the petition for a writ of certiorari, the attorneys for Mr. Newman, after giving a history of his case, contend that the power to determine the qualifications under the law of an amount of the law o

"Your petitioner," says the petition, represents that the record invouves he consideration of propositions of great public importance, many of which have not heretofore been presented to this court; that if the decision of the tained a court and jury of the District committee and Representative Mann, will enjoy the right to review and the republican leader, that President wilson should be given a free hand in dealing with the situation. President and of the Senate, as to qualifications of newly appointed and confirmed officers, upon which they have expressed their deliberate judgment; that should the President and the senate determine that the nominee for a judicial office was a man learned in the law, a judge and jury of the District could revise their judgment and oust him from his position, because in their opinion the facts developed failed to disclose such qualifications; that if the President and the Senate should determine where appointments were apportioned between different parties, that the appointee belonged to another party than that to which he was accredited, he could be ousted from his office; that if the President and Senate were obliged to pass upon the moral character or other qualifications of an officeholder, nevertheless the man so appointed might be ousted because of a finding of a jury that his moral or other qualifications were not such as the statute contemplated."

Kal Fu Shah, the Chinese minister the case against District Commissioner here, has presented the memorandum Oliver P. This, on comparison with stoner was illegal owing to the fact the memorandum which the Japathat Mr. Newman was not a resident of nese foreign office February 9 gave to that Mr. Newman was not a resident of the District within the meaning of the law, have filed with the United States Supreme Court a motion to dismiss demands, about seven or eight in num-

In the brief accompanying the motion, which was filed by former Senator Joseph W. Bailey, A. A. Birney and W. J. Neale, it is stated that the Chief Justice granted the writ of error "upon the ground that there was a deubt in his mind."

ences in the two versions probably will be forthcoming.

High officials here were distinctined to discuss the various demands, Secretary Bryan announcing that although the State Department had the matter "under consideration" no opinion could be given at this time. He denied published reports that a note had been sent to Japan, however, and it was stated authoritatively that the American government had not since the beginning of the negotiations made any representations or taken any diplomatic steps beyond keeping itself informed along with the other powers.

The belief prevailed in official quarters that inasmuch as the Chinese memorandum antedated considerably the statement given the powers by Japan, the latter document probably constituted the present basis of negotiations, and signified either that the original demands were only tentative and orally made, or that they had been abandoned altogether by Japan.

Chairman W. H. Richardson Denies

Emphatic denial of a report that the lean-city committee of the District has known as the clean-up-and-paint-up com mittee was made today by W. H. Richardson, chairman of the former organization son, chairman of the former organization.
Pointing out that the clean-up-andpaint-up body is a commercial organization, whereas the organization he represents is a civic association, with an
original membership appointed by the
District Commissioners, Mr. Richardson
declared the clean-city committee is here
to stay and will conduct its usual sanitary campaign this spring.
The campaign will last from April 19
to May 1, and will be conducted along
more elaborate lines than any of the
previous ones.

previous ones.

According to Mr. Richardson confusion as to the purposes of the two organizations developed probably as a result of the fact that the clean-city committee had indersed the work the clean-up-and-paint-up committee pro-poses to do. In return for this indorse-ment the latter association promised to help finance the work of the clean-city committee, it is stated.
